

Programming and Data Management for Economics and Finance (NA446A)

Study Guide

2026

Kamil Kladívko

`kamil.kladivko@oru.se`

and

Magnus Lodefalk

`magnus.lodefalk@oru.se`

Örebro University School of Business

Last modified: October 1, 2026

- ▶ There will be 11 two-hour classes. Schedule available on *Kronox*.
- ▶ Each class combines a **lecture** and a **computer lab** session.
- ▶ **Bring your laptop to all classes!**
- ▶ The course is divided into two main blocks:
 1. Programming basics, numerics, and algorithms. Taught in MATLAB by Kamil Kladívko. Week 1, 2, and 5 of the course
 2. Applied data work and econometrics. Taught in Python by Magnus Lodefalk. Week 2 and 3 of the course. See a webpage dedicated to Magnus' part of the course: <https://magnuslodefalk.com/na446a>
- ▶ Install MATLAB on your laptop before the first class. Installation instructions: <https://www.oru.se/english/study/student-services/it-services/software/matlab/>
Include the *Statistics and Machine Learning Toolbox* and the *Optimization Toolbox*.
- ▶ Install Python before the third week of the course. See instructions on Magnus's website dedicated to the course <https://magnuslodefalk.com/na446a/setup.html>
- ▶ Classes are not mandatory, but will help you prepare for the exam.

- ▶ The exam is a WISEflow digital exam conducted in an examination hall.
- ▶ The duration of the exam is two hours.
- ▶ The exam is scheduled for Saturday, 7 November 2026. The re-exam is scheduled for Friday, 4 December 2026.
- ▶ **No aids or cheat sheets are permitted** during the exam.
- ▶ Maximum number of exam points is 100. A minimum of 50 points is required to pass.
- ▶ The course grade (A–F) is awarded according to the following scale:

Total points	Grade
0–49	F
50–59	E
60–69	D
70–79	C
80–89	B
90–100	A
